

EIZO Expands Its Manufacturing Facilities for Air Traffic Control and Industrial Products to a New Site in Germany

Geretsried, Germany, July 16, 2020 – EIZO today announced that EIZO Technologies GmbH, which is dedicated to the development and production of solutions for air traffic control and industrial markets, has expanded its operations with a new factory. The new site, which is located in Geretsried, Germany, began operations on July 1, 2020.

As one of EIZO's core manufacturing facilities, EIZO Technologies GmbH focuses on specialized and customized solutions for niche markets, such as air traffic control and the industrial sector. By expanding its operations with the new factory, EIZO ensures it can respond to anticipated increases in demand and provide more added value according to customer needs. In addition, the production process for these solutions has been refined to further improve efficiency.

About EIZO
