

**Accelerating Efforts to Achieve Carbon Neutrality
EIZO Announces “Transition to Net Zero”**

Transition to **Net Zero**

Hakusan, Japan, May 25, 2023 – EIZO Corporation (TSE: 6737) announced that the company released "Transition to Net Zero" on its website. It outlines its efforts to achieve carbon neutrality.

EIZO identified “Supporting a Recycling-Oriented Society”, “Respond to Climate Change” and “Supply Chain Management” as key materialities that EIZO should address. In accordance with this, EIZO has accelerated its sustainability efforts, reconfirmed its support for the recommendations of the Task Force on Climate-related Financial Disclosure (TCFD) ⁱ in May 2021, and the near-term science-based GHG emissions reduction targets were approved by the SBTi ⁱⁱ in July 2022. In line with the transition plan developed to achieve Net Zero by 2040, EIZO will continue to drive efforts to achieve carbon neutrality across the value chain.

More information on the transition plan can be found on the EIZO Global Website:

<https://www.eizoglobal.com/company/csr/promise2/netzero>

EIZO GHG Emission Reduction Targets

FY2030	Scope 1+2 - Reduce absolute scope 1 and 2 GHG emissions by 70% by FY2030 compared to the FY2019 base year Scope 3 - Reduce absolute scope 3 GHG emissions by 27.5 % by FY2030 compared to the FY2019 base year
FY2040	Scope 1+2 - Reduce Scope 1 and 2 GHG emissions to Net Zero Scope 3 - Aim for Net Zero GHG emissions in Scope 3 in cooperation with stakeholders

ⁱ The Task Force on Climate-related Financial Disclosures (<https://www.fsb-tcfd.org/>)

In response to a request from the G20, the Financial Stability Board (FSB) established the TCFD to examine climate-related disclosure and responses by financial institutions. TCFD encourages companies and other organizations to disclose their governance, strategy, risk management, indicators and targets with respect to climate change-related risks and opportunities.

ⁱⁱ SBTi (Science Based Targets initiative) (<https://sciencebasedtargets.org/>)

An international partnership between CDP, the United Nations Global Compact, World Resources Institute (WRI), and the World Wide Fund for Nature (WWF). It encourages companies to set science-based GHG reduction targets and reviews and validates those targets from an objective standpoint.
